

# The checkout layer for AI agents.

Turn APIs and digital services into products that humans and agents and agents can discover, pay for in USDC, and receive.

\$1M PRE-SEED

SEPTEMBER 2026

THE NEXT BUYER  
IS SOFTWARE.

# APIs were built to be called. Not bought.

## \$3–5T

global consumer commerce could be orchestrated by AI agents by 2030

## 24%

of developers build APIs for for agents

**Demand is arriving before commerce infrastructure.**

# One integration creates two buyer channels.

# Built before the round.

The core commerce product exists. The round activates production payments and distribution.

**21**

maintained stack recipes

**13**

supported ecosystems

**2**

buyer channels

**1**

unified commerce ledger  
ledger

● Signed machine discovery

● Exact-price x402 checkout

● Replay-safe fulfillment

● Receipts, evidence and  
recovery

NEXT MILESTONE • PRODUCTION USDC ACTIVATION + EXTERNAL SECURITY REVIEW

# Payment is a feature. Trust after payment is the moat.

Every transaction creates a verifiable chain from discovery to delivery.

01

**SIGNED  
DISCOVERY**

What can be bought

02

**IMMUTABLE  
QUOTE**

What must be paid

03

**VERIFIED  
SETTLEMENT**

Who paid what

04

**BOUND  
EXECUTION**

What may run once

05

**EVIDENCE +  
RECOVERY**

What happened next

**Seller-controlled by design**

The seller retains the service, authoritative price, payout wallet and customer relationship.

# A SaaS wedge with transaction-scale upside.

Buyer USDC settles directly to the seller. AgentPay monetizes software, usage and trust infrastructure.

**01 SUBSCRIPTION** Launch plans create a low-friction seller wedge.

**02 USAGE** Successful-transaction metering expands with volume.

**03 ENTERPRISE** Higher limits, evidence and policy controls.

## 18-MONTH TARGET MODEL

**500** sellers  $\times$  **\$50**  
blended  
monthly  
revenue / seller

**\$25K MRR**  
target — base subscription + usage

**Subscription lands the seller. Usage expands the account.**

# \$1M to activate production USDC.

18 months to launch USDC, prove demand and build distribution.

**\$1M**

PRE-SEED

**18 months**

focused runway

- 01 Activate production USDC** External security review + launch readiness
- 02 Prove seller demand** 25 design partners • 10 paying sellers
- 03 Build repeatable scale** 500 sellers • 50K monthly transactions

## FOUNDERS

**Pratham Ranka**

Product direction • seller experience  
commerce + platform systems

**Ayush Garg**

Application foundations • integrations  
production delivery
